Chief Justice Chase has de cided at Richmond that the acts of men holding office in the Southern ates who are disabled by the 14th mendment are legal and binding. This is a matter of deep interest to the people of Kentucky where so many ex-rebels have been elected to public positions. It settles the turbed without Congressional action unless the Chief Justice should e reversed by the Superior Court. Chase has become quite conservative of late years. He sees the excesses into which radicalism has caried us and would now calm the storm which he was one of the shief spirits in raising.

DISEASES OF THE KIDNEYS AND

BLADDER.

Persone unacquainted with the structure and functions of the kidneys cannot ostimate the importance of their healthy action.

Regular and sufficient action of the Kidneys can important, nay, even more so, than regularity of the howels. The Kidneys remove from the Blood those effects matters which, if permitted to remain, would speedly destroy life A total suspension of the urinary discharges will occasion death from thirty-six to forty with hours.

when the Urine is voided in small quantitie

When the Urine is voided in small quantities at the time, or when there is a disposition to ligitate more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be taken at once to remedy the difficulty, before a lession of the ôrgans takes place. Most of the diseases of the Blander originate from those of the Kidneys, the Urine being imperfectly secreted in the Kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pare.

CLENCOE,

Will make the present season of 1570, which has commenced and will expire the 20th of the buck of Central Hotel, at \$25 to insure a mare back of Central Hotel, at \$25 to insure a maze in toal; the money due in every instance when the fact is ascertained or the mare ported with. In offering the services of GLENCOE to the breeding public we feel confident that we are offering a superior horse at less price than can be obtained anywhere else in Kentucky There is no horse that approximates to him that stands for less than \$50 the season. The advertisements of all the modern trotting stallions, or nearly all, claim to be descendents and imbred to old imported Messenger. Now if the Messenger cross is so desirable in trotters of the present day, why in the name of common sense do we not seek this cross in its preof the present day, why in the name of com-mon sense do we not seek this cross in its pre-sent channel, which can be found in stallions or mares that have strains of American Eclipse coursing through their veins. American Eclipse was by Duroc, dam, Miller's Damsel, the best daughter of old Imported Messenger. By re-lerence to Glencoe's pedigree you will see that his sire's dam was by Hitching's Eclipse, and he by American Eclipse, which is as direct as it can be obtained at this day, as old imported Messenger has been dead 62 years. Messenger has been dead 62 years.
Nors.—Gleecoe's colts are coming remark-ably large and fine; and so firmly convinced are we, that blood will tell, that we will show him we, that blood will tell, that we will show him and ten of his coits that come this spring against any other horse d-ing business in Shelby county and the same number of colts for a \$50 premium. The successful party to give a \$25 premium, each, to the finest horse colt and the finest mare colt of his horse's get. To be shown under the rules and 'egulations of the Shelby County Fair. To be judged as the finest and best horse and colts for all purposes. This proposition open until July 1st, 1870.
